### POISONED WATER

One of the leading surgeons in the army made the following characteristic remark: "Water kills more solidiers than bullets." His meaning was, that solidiers who drank impure water died by disease in greater numbers than those killed by bullets. The surgeon was right. Impure water, capccially at this season, is a terrible cause of sichness and death. But the public say, what shall we do? There is but one sensible thing to do, snd that is to purily the water by mixing with a something that and robbing does this like pure whiskey. But it may be asked, where can it obtain pure whiskey? Frofessor Henry A. Mott says, "the purity of Duffy's Pure Malt Whiskey is absolute, and should commend it to the highest public faror." There are hundreds of families that are drinking water constantly, and are kept in perfect health by simply mixing a little of Duffy's Pure Malt Whiskey in each gias they drink. It is a simple and a sure preventive of summer classassa and geren poismes, and is endorsed by the proposite in the land.

The thermometer at Schnepf's drug store, Opera House corner, yesterday registered as follows;

Wanther Indications.

Washington, D. C., July 10.—For West Virginia and Western Pennsylvania, showers, cooler, variable winds. ANOTHER HOT DAY.

The Thermometer up to 96 Again-Ar

Perhaps yesterday was not another scorcher, and then perhaps it was. The thermometer was as high as on Tuesday and hung just a degree lower for four hours. The cumulative effect of two such warm days, with little relief in the night, made the effect especially severe. Following is the way the mercury stood at hourly intervals:

Last evening some signs of a breeze were perceptible, and there was a show-ing of lightning, with rumbileg thunder, in the weet, but the threatened storm blew over, and it was still awful hot at

The heaters in the Belmont mill made The leaters in the Section and then knocked off. The workmen in the other mills also either laid off entirely or only made part time. Several cases of slight sickness from the excessive heat were

Prof. Roemer, Principal of the Linsly Institute, has gone to Morgantown to attend the meeting of the State Educational Association

Mr. Otto C. Hess has returned home for the summer vacation from Terre Haute, Indiana, where he is attending

A Narrow Eccape.

On Tuesday afternoon a young daughter of Dixon Hepburn, at Irwin Station, was playing on the railroad track as the Bellaire, Zanceville & Cincinnati passeager train came along. The engineer happened to see the child, and reversed his engine and gave her sánd, but the little one did not move until the massive iron cow-catcher struck her and knocked her off the track with a cut and bruised face and body. The injuries are not beface and body. The injuries are not be-lieved to be dangerous, but it was a close

Fire Alarms Yesterday

The fire department had two runs is The fire department had two runs in quick succession yesterday afternoon-pretty hard work for so hot a day. The first was caused by a blaze in the Caldwell & Peterson Company's steel roofing factory. Somebody carelessly threw a lighted natch into the paint machine. The employes extinguished the blage with a loss of less than \$10. The second was on account of a blaze in a coal shed in the Eighth ward, also due to carelessness, and the loss here was likewise merely nominal.

Formally Adopted by the Western Cut Nail Association,

AT THEIR REGULAR MEETING

the cut nail is to have a future at all.

An attempt was made to adopt a new asis of selling nails, whereby the presbasis of sciling halls, whereby the pres-ont system of averages would be done away with, and something like the old plan of selling on a recognized base price would be substituted. Pending a discussion on this subject the Associa-tion decided to refer a decision of the matter to a special meeting to be held here in two weeks—that is, on the 24th of July.

fuly. It was rather expected that yesterday's It was rather expected that yesterday's meeting would wind up the present Association, but as one matter after another was discussed, those present became impressed that it was after all too valuable an organization to be sacrificed without an effort to perpetuate it in some form. Therefore it was agreed to hold another meeting on the 24th and to endeavor to secure as large an atten-

hold another neeting on the 24th and to endeavor to secure as large an attendance as possible of the members.

Members of the Association said yesterday that balls cut by the reduced gauge are already on the market, but that this was not the result of action by the Association, but of the adoption of the new idea by individual mills. Which mills were making the smaller nail they all declined, for some reason, to say.

THE FLINT GLASSWORKERS.

The third day's session of the American Flint Glassworkers' national convention, at Bellaire yesterday, was de-voted strictly to business, and all those prominent in the association would say after it was over, was that "all was har-monious." The suggestion has been mader-however, that the convention is reaching that point where the harmony that has so far characterized the proceedings will be severely tested. There are a great many proposed amendments to the constitution and by-laws, some of which will never be considered, because the point aimed at is already covered. The insurance feature will, no doubt, be adopted when it comes up, though there is considerable opposition to it. The scheme proposes to allow \$500 or \$1,000 death benefit to friends of a deceased member. nade, however, that the convention is

member.
Among the amendments proposed are provisions limiting cutters and mould-makers to fifty-five hours for a week, limiting apprentices to one for each five pots, and to refuse to work moulds made by non-union labor.

The committees are all at work, and it is not likely any reports of consequence

The committees are all at work, and it is not likely any reports of consequence will be made before Friday. Then the music will begin if there are to be any is determined fights. The shademakers have the most serious question so far brought up, although it is hinted that to humber in moves on opal ware is to be reduced, which is equivalent to ask ing an advance in the price of making the secondary no one knows outside of the organization. The figures given as a balance are entirely too liberal, notwith-standing the earnings of the members are are carried to in the price of making the past year reached almost \$4,000,000. It is only in times of serious to the control of the moment only loaned to them. President Smith, however, states that at no time since the inception of the organization has it been in the excellent condition in it is to-day.

The troubles of the past year have not lied to the past year have not it around, and several of filthy gutters.

Two of the delegates to the Glass-workers' Convention, says the Tribune, concluded to run a foot race Tuesday, William Barr, of Findlay, and H. Williams, of Pittsburgh. The start was all right, but before the close Barr slipped and fell with such disastrous results to his small clothes that he declined, with thanks to rones the race, and retired his small clottes that he declined, with thanks, to renew the race, and retired to bed, while his pants were being mended. The event was one of hilarious enjoyment to the onlookers, but Barr didn't see where the laugh came in.

The Independent says: M. J. Laifey, President of Local Union No. 74, and James Burke, Vice President of Local Union No. 74, of Findlay, delegates to the convention here, are former Bellaire boys. James Burke is the youngest delegate sent to the National Convention, and his friends here are glad to learn of his being a favorite with his local union.

bell and Frank Hacket, and of No. 26, of Walter Murray, H. C. Tetersoll, Jos. Colbert, George Upperman and John Cavill. The programme at the lake will be quite interesting, consisting of boat races, fat men's races, speeches and good music.

The Glass Fair Again.

The semi-annual exhibit of samples of glassware at the McLure house for the buyers of the country, has again begun. Mr. Long, representing the Northwood, ance Light, but the Organization takes a New Lease of Life.

A Special Meeting.

The regular monthly meeting of the Western Cut Nail Association was held at the headquarters of the Association in this city yesterday. It was but the headquarters of the Association in this city yesterday. It was but the headquarters of the Association in this city yesterday. It was but the headquarters of the Association in this city yesterday. It was but the headquarters of the Association in this city yesterday. It was but the headquarters of the Association in this city yesterday. It was but the spring.

Mould-Makers Resting.

slimly attended as compared with former meetings, but nevertheless some business of importance was transacted, among which was the adoption of a new gauge by which the number of nails per pound will be increased to the wire nail standard.

There was but little opposition to this change, nearly everybody having come to recognize that it is a vital necessity, if the cut nail is to have a future at all.

Syrup of Figs

Is nature's own true larative. It is the most easily taken, and the most effective remedy known to cleanse the system when billious or costive; to dispel head-aches, colds, and fever; to cure habitual constitution, indirection, and the state of the constitution indirection. constitution, indigestion, piles, etc. Manufactured only by the California Fig Syrup Company.
